WINS net profit for 1Q2013 grew 19% to USD 5.8 million on revenue growth of 45%. EPS 1Q2013 is US cents 0.16 (Equivalent to Rp 15.62).

Laba bersih WINS kuartal pertama 2013 tumbuh 19% sejumlah USD 5,8 juta dan pendapatan tumbuh 45%. Laba per saham kuartal pertama adalah sebesar USD 0,16 sen (Setara dengan Rp 15,62).

Strong contribution from Chartering Division with Higher value 3rd party vessel contracts

Revenue grew 45% in 1Q2013 to USD 39 million compared to 1Q2012 on the back of a rebound in the chartering division. As demand for higher value Indonesian Offshore Support Vessel (OSV)s picked up, our strong track record in the OSV market enabled us to win some higher value vessel contracts for which we brought in 3rd party vessels to operate. Gross profit from chartered vessels saw a significant jump of 282% to USD 1.3 million compared to the previous year, reflecting new chartering contracts for high value vessels and a slight improvement in margins.

Kontribusi yang kuat dari Divisi Kapal Sewa untuk kapal bernilai lebih tinggi milik pihak ketiga

Pendapatan tumbuh 45% pada kuartal pertama 2013 sebesar USD 39 juta dibandingkan dengan kuartal pertama 2012 didukung dengan membaiknya divisi penyewaan. Dengan meningkatnya permintaan kapal lepas pantai (OSV) bernilai lebih tinggi di Indonesia, reputasi kami yang kuat di pasar OSV telah membantu kami memenangkan beberapa kontrak kapal bernilai lebih tinggi yang kami sewa dari pihak ketiga yang kami operasikan. Dibandingkan tahun lalu Laba kotor dari kapal sewa menunjukkan lompatan signifikan sebesar 282%, menjadi USD 1,3 juta, mencerminkan nilai kontrak baru untuk penyewaan kapal bernilai tinggi dan marjin yang lebih membaik.

Owned Vessels

Owned vessel revenues grew by 11% to USD 18.5 mil because of fleet expansion in 2011 and 2012, while gross profit from this division rose 9% to USD 9 million compared to 1Q2012, reflecting the impact of the utilization of the new high value vessels acquired in 2013. Other ship management revenues were also up by 93% to USD 2 million as compared to the previous year.

Kapal Milik

Karena adanya ekspansi armada pada tahun 2011 dan 2012 pendapatan kapal milik tumbuh sebesar 11% menjadi USD18,5 juta dibandingkan dengan kuartal pertama 2012, sementara laba kotor dari divisi ini naik 9% menjadi USD 9 juta, mencerminkan digunakannya kapal-kapal baru bernilai tinggi yang diperoleh pada tahun 2013. Pendapatan *ship management* juga naik 93% menjadi USD 2 juta dibandingkan tahun sebelumnya.

Total gross profit rose from USD 9 million in 2012 to USD 11.3 million for first quarter 2013, a gain of 24% YOY. However, overall gross margins declined from 33.8% to 28.9% because of the strength in the chartering division, which has much lower gross margins but is also asset light.

Jumlah laba kotor naik dari USD 9 juta di 2012 menjadi USD 11,3 juta pada kuartal pertama 2013, tumbuh sebesar 24% dibandingkan periode yang sama tahun lalu. Namun, marjin kotor keseluruhan turun dari 33,8% menjadi 28,9%, karena meningkatnya divisi kapal sewa yang memiliki marjin kotor lebih rendah tetapi membutuhkan asset yang lebih sedikit.

New Vessels

During the first 3 months of 2013, WINS took delivery of 3 new vessels: 1 Heavy Load Offshore Barge, 1 Fast Utility Vessel

Kapal Baru

and 1 Platform Supply Vessel. These vessels were not fully utilized in the first quarter. Another 3 to 4 vessels are expected in 2Q2013 as there are a total of 8 vessels ordered for 2013. However, with the stronger than expected demand for higher value vessels so far this year, we expect to raise our capital expenditure plans should we win more high value vessel tenders.

Indirect expenses and Operating Profit

To achieve our targeted growth in the higher value segment of the OSV market, we must also continually invest in human resources, leading to higher overall staff and salary costs. This led to a 17% YOY increase in staff costs while our increased capacity to win contracts has also added to marketing costs. Operating profit was up by 18% to USD 8.3 million compared to 1Q2012.

Other income and expenses

Interest expenses were 33% higher at USD 1.5million compared to the previous corresponding quarter, due to additional financing received for new fleet. Contribution from associated companies rose by 160% to USD 0.6 million.

After accounting for tax and minority interest, the net income attributable to shareholders was USD 5.88 million for the first three months of FY2013.

Strong demand from several exploration projects

As at 31st March 2013, the total contracts on hand are worth USD 201 million. This reflects the strong demand we are experiencing from the oil and gas industry, especially for higher value fleet. There are several tenders expected to be announced in the upcoming months and WINS will be bidding for some of these.

ini belum dioperasikan secara maksimal pada kuartal pertama. Diharapkan kedatangan 3 hingga 4 kapal lainnya pada kuartal kedua dari pemesanan 8 kapal untuk tahun 2013. Namun, dengan menguatnya permintaan melebihi perkiraan, kami memperkirakan adanya peningkatan belanja modal jika kami memenangkan tender-tender kapal bernilai lebih tinggi.

Biaya tidak langsung dan Laba Operasi

Untuk memperoleh target pertumbuhan di kapal-kapal OSV bernilai lebih tinggi, kami juga harus terus berinvestasi dalam sumber daya manusia, sehingga beban staf dan gaji meningkat. Hal ini menyebabkan peningkatan biaya karyawan sebesar 17% dibandingkan periode sama tahun lalu, sementara meningkatnya kemampuan kami untuk memenangkan kontrak juga menambah biaya pemasaran. Laba operasional naik 18% dibandingkan dengan kuartal pertama 2012, menjadi USD 8,3 juta.

Pendapatan dan beban lain-lain

Beban bunga naik 33% menjadi sebesar USD 1,5 juta dibandingkan dengan triwulan yang sama tahun sebelumnya, disebabkan oleh penambahan pembiayaan untuk armada baru. Kontribusi dari perusahaan asosiasi naik sebesar 160% menjadi USD 0,6 juta. Setelah memperhitungkan pajak dan hak minoritas, laba bersih diatribusikan kepada pemegang saham sebesar USD 5,88 juta untuk kuartal pertama 2013.

Permintaan yang kuat dari beberapa proyek eksplorasi

Per tanggal 31 Maret 2013, jumlah kontrak yang diperoleh senlai USD 201 juta. Hal ini mencerminkan permintaan yang kuat dari industri minyak dan gas, terutama untuk armada kapal bernilai lebih tinggi. Ada beberapa tender yang akan diumumkan pada bulan-bulan yang mendatang dan WINS akan mengikuti sebagianya.
