Wintermar secures 7 year Contracts for 2 PSVs

Wintermar contracts 2 Platform Supply Vessels (PSVs) to a major oil and gas company for a total of 7 years including options.

Wintermar has signed agreements to provide 2 PSVs to provide deck and cargo supply runs to support the drilling operations of a major oil and gas company in Eastern Indonesia.

At a ceremony marking the event last week, Sugiman Layanto, Managing Director of PT Wintermar Offshore Marine Tbk said, "Wintermar is proud to be selected as a marine partner for this significant long-term project. The project requires Dynamic Positioning 2 (DP2) operations while the vessels are approaching the rig. With our long experience in offshore deep water drilling campaigns since 2011, we are confident to be able to meet the high standards required for this campaign. We are committed to support SKK Migas to increase the oil and gas lifting in Indonesia. To aid regional development, Wintermar has started a crew development program and now have Papuan crew on board our high Value vessels."

SKK Migas Deputy of Procurement Control, Mr. Tunggal, said, "SKK Migas is pleased to work with Wintermar for this long term cooperation to achieve our target for oil and gas lifting. This project also aims to develop the regional capability and expand the local workplace and market. We note the commitment of our partners to use local crew and develop supporting industries in the operations area which will help achieve our aim."

Mr. Erwin Suryadi, SKK Migas Head of Goods and Services Procurement Management Division, added, "The Papuan Development program in this Contract aims to develop local shipyards and use local Papuan crew members. This is an important contribution of the upstream oil and gas industry to build infrastructure in eastern Indonesia. The gradual improvement of infrastructure will help the community to get better access to services."

Wintermar menyewakan 2 Platform Supply Vessel (PSV) kepada perusahaan minyak dan gas bumi terkemuka untuk jangka waktu 7 tahun termasuk opsi.

Wintermar telah menandatangani perjanjian untuk menyediakan 2 PSV untuk menyediakan persediaan dek dan kargo berjalan untuk mendukung operasi pengeboran dari perusahaan minyak dan gas bumi terkemuka di Timur Indonesia.

Pada sebuah acara yang berlangsung minggu lalu, Sugiman Layanto, Direktur Utama dari PT Wintermar Offshore Marine Tbk menyatakan, "Wintermar bangga dipilih sebagai mitra kelautan untuk proyek penting jangka panjang ini. Pekerjaan tersebut membutuhkan pengoperasian *Dynamic Positioning 2 (DP2)* saat kapal-kapal mendekati ke *rig*. Dengan pengalaman panjang kami dalam pekerjaan pengeboran lepas pantai di laut dalam sejak 2011, kami percaya diri untuk dapat memenuhi standar tinggi yang dibutuhkan untuk pekerjaan ini. Kami berkomitmen untuk mendukung SKK Migas untuk meningkatkan *lifting* minyak dan gas bumi di Indonesia. Untuk membantu pengembangan daerah, Wintermar telah memulai program pengembangan awak kapal dan saat ini telah memiliki awak kapal berdarah Papua di atas kapal-kapal kami yang bernilai tinggi".

Pengadaan SKK Migas, Bapak Tunggal menyatakan, "SKK Migas senang dapat bekerja dengan Wintermar untuk kerja sama jangka panjang ini guna mencapai target kami atas *lifting* minyak dan gas bumi. Proyek ini juga bertujuan untuk mengembangkan kemampuan regional dan meningkatkan lapangan kerja dan pasar lokal. Kami menyadari komitmen dari mitra-mitra kami untuk menggunakan awak kapal lokal dan mengembangkan industri-industri penunjang di wilayah kerja yang akan membantu mencapai tujuan kami."

Bapak Erwin Suryadi, Kepala Divisi Pengelolaan Pengadaan Barang & Jasa SKK Migas, menambahkan, "Program *Papuan Development* di dalam Kontrak ini mengarahkan pengembangan galangan kapal lokal dan kewajiban penggunaan awak kapal lokal Papua. Ini merupakan kontribusi penting dari industri hulu migas untuk membangun infrastruktur di daerah timur Indonesia. Sehingga secara bertahap perbaikan infrastruktur nantinya akan membantu masyarakat untuk mendapatkan akses pelayanan yang lebih baik."
