PT Wintermar Offshore Marine Tbk achieves Integrated Management System certification with the award of ISO 14001:2004 (Environment Management System) and OHSAS 18001:2007 (Occupational Health and Safety Management System)

PT Wintermar Offshore Marine Tbk (WINS) has attained the following certifications required for Integrated Management System certification approved by Lloyds Register Quality Assurance (LRQA) and accredited by the United Kingdom Accreditation Service (UKAS-UK):

- 1) **ISO 14001:2004** (Environmental Management System)
- 2) **OHSAS 18001:2007** (Occupational Health and Safety Management System)

for Management Services on Ship Operation.

These two internationally recognised certifications, combined with our **ISO 9001:2008** (Quality Management System), which is accredited by the United Kingdom Accreditation Service (UKAS-UK) and the ANSI-ASQ National Accreditation Board (ANAB-USA), now completes our requirement to be certified with Integrated Management System by Lloyds Register Quality Assurance (LRQA) accredited by UKAS. Integrated Management System Certification is awarded to companies who operate a single management system that complies with the combination of requirements of the ISO/OHSAS standards in the areas of Quality, Environment and Occupational Health and Safety.

PT Wintermar Offshore Marine Tbk is proud to be the first Indonesian shipping company to achieve this important certification for Ship Management. We believe this demonstrates our company's mission to strive continuously to perform to the highest standards of professionalism, quality and safety.
