

NEWSLETTER # 18

16th March 2012

WINS Group awarded USD 56 million contract from BP Berau Ltd.

PT Wintermar, a subsidiary of WINS has been awarded as winner for contract to provide 2 units of 8,000 BHP Anchor handling, Towing and Supply (AHTS) Vessels and 1 unit of Drilling Support Warehouse Barge(DSWB) to support BP Berau Ltd. in its drilling operations in Tangguh, Papua. This will mark the WINS Group's entrance into the 8,000BHP category of AHTS. Both vessels will be DP2 vessels with 100T bollard pull.

These will be the first 8,000BHP vessels in the Group's fleet, and demonstrates the WINS Group commitment to expand into higher technology vessels to support the growing needs of the offshore oil and gas industry in Indonesia. Funding will be from a combination of loan and equity. Operations are expected to start in the second semester of 2012 until 2015.

The scope of work is to provide :

1. 2 Units of 8,000 BHP AHTS vessels will be used for towing the DSWB and Jack-Up Drilling Rig, carriage of materials including bulk chemicals, water and diesel fuel to BP's Jack-Up Drilling Rig and Drilling Support Warehouse Barge facility in Berau Bay, Papua.
2. 1 unit DSWB will be used for storage of drilling materials required to support the Tangguh Exploration & Appraisal Drilling project in Bintuni Bay. The Drilling Support Warehouse Barge work will provide logistical support including accommodation for drilling personnel and will be moored in a location in Berau/Bintuni Bay to provide access to the drilling locations.

In line with the Indonesian government's push to increase oil and gas resources in Indonesia, offshore drilling activity in the country has been on the uptrend this year, with several large deep water projects in the pipeline with total project cost in the billions of US dollars. The fleet expansion of WINS in the past 2 years and expected fleet addition of 8-10 vessels in 2012 is targeted to capitalize on this increase in demand.

Grup WINS menangkan tender BP Berau Ltd. senilai USD 56 juta

PT Wintermar, anak perusahaan WINS ditunjuk sebagai pemenang kontrak penyediaan 2 unit kapal jenis Anchor Handling, Towing and Supply (AHTS) ukuran 8.000 BHP dan 1 unit Drilling Support Warehouse Barge (DSWB) untuk mendukung kegiatan pengeboran minyak dan gas BP Berau Ltd. di Tangguh, Papua. Hal ini menandai langkah WINS Group masuk di kapal AHTS ukuran 8.000 BHP. Kedua kapal tersebut merupakan kapal tipe DP2 dengan kemampuan 100 Ton bollard pull.

Kapal AHTS menjadi kapal pertama dengan ukuran 8.000 BHP dalam armada WINS. Hal ini mewujudkan komitmen WINS untuk ekspansi ke kapal berteknologi tinggi mendukung peningkatan permintaan dalam industri minyak dan gas lepas pantai. Pendanaan kapal-kapal tersebut berasal dari dana perusahaan dan pinjaman bank. Pelaksanaan pekerjaan dari BP Berau di atas akan dimulai pada semester II 2012 hingga tahun 2015.

Lingkup pekerjaan adalah:

1. 2 Unit kapal AHTS digunakan untuk menarik DSWB dan Rig Jack-Up Drilling, mengangkut material termasuk bahan kimia, air tawar dan bahan bakar diesel ke BP Jack-Up Drilling dan fasilitas DSWB di lokasi Teluk Berau, Papua.
2. 1 Unit DSWB digunakan untuk akomodasi penyimpanan material pengeboran mendukung proyek Tangguh Exploration & Appraisal Drilling di Teluk Bintuni. Kapal jenis DSWB merupakan jasa pendukung logistic termasuk akomodasi bagi tenaga kerja pengeboran dan akan tetap berada di lokasi Berau/Bintuni sebagai penyedia akses ke lokasi pengeboran.

Sejalan dengan upaya pemerintah untuk mendorong peningkatan cadangan minyak dan gas di Indonesia, aktivitas pengeboran telah meningkat pada tahun ini, dengan adanya beberapa proyek laut dalam dengan nilai relatif besar. Penambahan armada kapal WINS dalam dua tahun terakhir dengan rencana penambahan pada tahun 2012 sejumlah 8 – 10 unit kapal adalah dalam rangka menangkap peluang dari kenaikan permintaan ini.
