#### **Clarifications on WINS Vessel Incident**

In view of some market rumours last week, the management of WINS would like to make a clarification regarding an incident involving one of our vessels and the implications for the company.

In mid March 2013, one of our fleet of vessels belonging to PT Wintermar, a subsidiary of WINS , was involved in an incident with a small fishing vessel which resulted in casualties involving two fishermen with minor injuries and one death in the hospital. The Directors and Management are saddened by this loss of life and have extended our sympathy to the family of the victim and provided financial compensation. Investigation of this incident has been finalized by the Police and Port Master resulting in no charges against PT Wintermar nor the crew on board.

Our client, PHE ONWJ, in accordance with existing regulations, has reported the matter to the upstream oil and gas regulator, SKK MIGAS, and in line with prescribed regulations under PTK 007, issued a notice that PT Wintermar will not be allowed to directly participate in tenders for a period of up to 12 months.

This will not affect any existing contracts of PT Wintermar that have been secured, nor will it prevent some of our other subsidiaries from participating in future tenders. It will however affect a number of ongoing tenders bid through PT Wintermar which will be automatically disqualified.

The Wintermar group has over the years built up a strong safety track record in the industry, winning several Safety Awards from various multi-national clients. Maritime losses and accidents are part of the Company's risk management assessment and such risks are managed with prudence to mitigate losses and protect the safety of personnel as well as the Company's assets. Amongst other mitigating steps, every vessel is adequately insured to cover such losses, as is the case in this incident. As a Company committed to maintaining a very high safety standard, this incident has been shared with employees and crew as a lesson learnt for all, so as to help raise awareness of ongoing risks in operations. The Management will strive to further elevate the current Standard Operating Procedure through ongoing risk assessments and

#### **Klarifikasi Insiden Kapal WINS**

Sehubungan dengan rumor yang beredar di pasar pada minggu lalu, manajemen WINS bermaksud untuk memberi klarifikasi mengenai insiden yang melibatkan salah satu kapal kami dan implikasinya terhadap Perusahaan.

Pada pertengahan Maret 2013, salah satu kapal yang dimiliki oleh PT Wintermar, anak perusahaan dari WINS, terlibat dalam insiden dengan perahu nelayan yang mengakibatkan dua orang nelayan mengalami luka-luka kecil dan satu meninggal dunia di rumah sakit. Direksi dan manajemen turut berduka cita atas kehilangan nyawa dan telah menyampaikan belasungkawa terhadap keluarga korban dan menyerahkan kompensasi financial. Investigasi telah dilaksanakan oleh pihak Polisi dan Syahbandar dengan hasil bahwa atas insiden ini tidak ada tuntutan terhadap PT Wintermar serta crew kapal.

Klien kami, PHE ONWJ, sesuai dengan peraturan yang berlaku, telah melaporkan hal tersebut kepada badan pengatur hulu minyak dan gas, SKK MIGAS, dan sejalan dengan yang tersebut dalam PTK 007, mengeluarkan pemberitahuan bahwa PT Wintermar tidak akan diperbolehkan mengikuti tender secara langsung untuk periode 12 bulan.

Hal ini tidak ada efek terhadap kontrak-kontrak yang telah diperoleh oleh PT Wintermar, maupun terhadap sebagian perusahaan-perusahaan anak lainnya untuk berpartisipasi dalam tender di masa yang akan datang. Namun pada sejumlah tender yang masih dalam proses atas nama PT Wintermar secara langsung akan didiskualifikasi.

Wintermar Group selama bertahun-tahun membangun jejak rekam keselamatan yang baik di industri, memenangkan beberapa Safety Award dari berbagai klien multi nasional. Kerugian maritim dan kecelakaan adalah bagian dari penilaian manajemen risiko Perusahaan dan risiko tersebut dikelola dengan hati-hati untuk mengurangi kerugian-kerugian serta melindungi keselamatan personil dan aset Perusahaan. Salah satu langkah mitigasi, setiap kapal diasuransikan secara memadai untuk menutupi kerugian, seperti halnya dalam insiden ini. Sebagai suatu Perusahaan yang berkomitmen untuk memelihara standar keselamatan yang sangat tinggi, insiden ini merupakan pelajaran berharga atau *lesson learnt* bagi semua karyawan dan awak kapal, sehingga dapat membantu dalam meningkatkan kesadaran terhadap risiko

implementation of more rigorous checks and performance evaluation to ensure that more experienced crew and professionals are certified to operate vessels in a safer manner.

operasi yang sedang dijalankan. Manajemen akan berusaha keras untuk memperbaiki Standar Operating Procedure yang ada melalui penilaian risiko dan ketelitian dalam pemeriksaan dan evaluasi kinerja yang terus menerus untuk menjamin awak kapal dan profesional yang berpengalaman memperoleh sertifikasi untuk mengoperasikan kapal dengan lebih berorientasi pada keselamatan.

The Management has decided to extend the Company's current CSR programme to work with the village of the deceased fisherman to provide better access to safety equipment and training.

Manajemen telah memutuskan untuk menambah program CSR Perusahaan untuk membantu desa nelayan yang menjadi korban untuk meningkatkan akses terhadap peralatan dan pelatihan keselamatan.

#### About WINS

PT Wintermar Offshore Marine Tbk (WINS) is an offshore marine services company that owns a fleet of over 64 vessels ready to handle a large variety of marine support services required in upstream oil and gas exploration and production activities including transporting crew, equipment and supplies, as well as providing services such as anchor handling, towing, and mooring of offshore rigs. Our young and growing fleet, comprising a wide variety of vessel types, enables us to offer innovative vessel and logistics solutions to serve our client base of multinational oil and gas companies. In 2011, WINS became the first shipping company in Indonesia to be certified with Integrated Management System by Lloyds Register Quality Assurance, comprising ISO 9001:2008 (Quality), ISO14001:2004 (Environment) and OHSAS 18001:2007 (Occupational Health and Safety).
